(54) INFORMATION EQUIPMENT

(57)Abstract:

PURPOSE: To provide an information equipment on which various liquid crystal display units can be interchangeably mounted by an easy method at low cost.

CONSTITUTION: The liquid crystal display unit 6 is fixed to a housing case 5 through an attaching member 7 whose one end is attachably/detachably attached to the display unit 6 and whose another end is attachably/detachably attached to the case 5. Then, the information equipment is provided with a circuit board 9 relaying an electrical signal from an equipment main body for driving the display unit 6. By such constitution, the display unit of a different type is mounted only by changing the shape of the attaching member 7 without changing a housing part. Furthermore, the various display units having a different signal system are mounted only by changing the relay circuit board 9.

LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of

rejection]

[Kind of final disposal of application other than
the examiner's decision of rejection or
application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's
decision of rejection]

[Date of requesting appeal against examiner's
decision of rejection]

[Date of extinction of right]
